WHY THE BOOTCAMP?

The LT&I bootcamp is designed to help individuals gain key legal technology skills in a reasonably short amount of time. Attending the bootcamp will enable attendees to understand and demonstrate a key understanding of the impact of technology across the legal industry whether you are inhouse or private practice.

The Why?

Learn Why Tech is Important

50 % of law firms say they do not understand the challenges and opportunities of technology.

Tech Adoption

What do Inhouse Lawyers think about tech

Recent stats show that almost every inhouse lawyer surveyed believes that they will use legal technology everyday in five years time.

Improve Productivity

How can tech help?

Being trained in how to effectively use new and existing technologies will increase productivity.

Tech Skills

Legal technology is ensuring that you now need more than just core legal skills to be an effective lawyer.

Competence

It will become increasingly difficult to perform as a lawyer without a better understanding of technology.

Latest Technology

It is important to understand what is happening across the legal technology ecosystem whether inhouse or private practice.

Ensuring as a legal services provider you can better serve your clients, and as an inhouse lawyer you are innovating to work effectively and being recognized as more than just a support function.

BOOTCAMP SCHEDULE: DAYS 2 & 3

Day 2

LegalTech Essentials
A primer module. Setting the scene. Understand the ecosystem, globally and regionally. What are the key segments. What is happening across legal services and inhouse departments.

LawTech Strategy
Learn how to build a legal technology strategy and how to successfully introduce it to your firm or legal department.

Digital Transformation
Understand transformation and components. You will learn to understand key challenges to transformation and get hands on with developing a transformation strategy.

Day 3

AI and the Legal Profession
Gather insights into the use of AI technology in law.
Will AI replace lawyers, and if not, why not. This includes a review of a few jurisdictions and whether AI would be allowed by the regulator to offer legal advice.

Contract Automation
Learn about the benefits of document/contract automation tools.
Get hands on with using a number of tools to automate a document.
Understand the landscape of these tools and evaluate what works best for your needs.
