Dear All Clients of the Sheriff Soweto East

On 30/07/2018 we were very unfortunate to experience a SERVER malfunction which left us without a system for 2 weeks.

On 13/08/2018 we were back on line, but with the very disturbing news of having lost 2 Months worth of Data.

This has created a major backlog in our office, and we are at this stage doing our best to get the old data restored and the new work done all at the same time. We are however not in a position to say how long it will take us to get back on track.

Accounts will be restructured as we are unable to back date any of the old data, so there will be changes to Reference Numbers and Invoice Numbers.

We wish to apologise for any inconvenience caused and we request that you be patient going forward, we will be working around the clock to make sure all data is restored.

Please assist us in any way you can, by emailing us your last received statement of Account, also the proof of payment of the payments made in June, July and August, should there be any.

We thank you in advance for your understanding and assistance.

Kind Regards

The Sheriff Soweto East Team
